

ÉNERGÒ-24

Portable Energy

ÉNERGÒ-24 is a **portable energy unit** that, thanks to its battery, provides a **wide energy reserve** for any situation.

The 24Vdc output voltage is safe and ideal for performing many useful services in daily work.

Its sturdy construction is useful to accompany you even on the toughest job sites. ÉNERGÒ-24, with its wide range of accessories, is a **multipurpose platform** suitable for a long list of applications.

TECHNICAL DATA

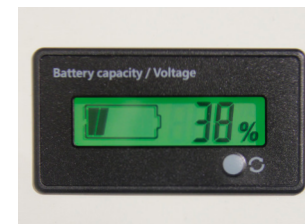

Nominal output voltage	24Vdc
Lithium battery	35Ah / 840Wh oppure 15Ah / 360Wh
Maximum applicable load	130W
Operating temperature	0° - 45°
Battery pack dimensions	W 250 x D 210 x H 235mm
Battery pack weight	8kg (Batteria 35Ah)

ACCESSORI

- Energo-24 lithium battery pack 15Ah
- Energo-24 lithium battery pack 35Ah
- Wall mounting bracket for battery pack
- 60W ceiling light - IP66
- Additional 60W ceiling light - IP66
- 60W floodlight - IP65
- Additional 60W floodlight - IP65
- Outdoor anti-panic siren for containers
- Customizable connection wiring

Practical and sturdy carrying handle

LCD display for battery status

Industrial-grade connection

INSTALLATION SYSTEM

Énergò-24 can be **customized according to your needs**; it can be assembled with different connections, additional switches, or specific accessories.

The bundle includes: portable battery pack, charger, wiring, and the devices to be powered.

All connections are pre-wired with easy-to-assemble connectors, the wiring is fixed thanks to useful magnetic clips without drilling.

APPLICATIONS

ÉNERGÒ-24 + LED FLOODLIGHTS energy for construction sites

Energy to light up small construction sites in isolated areas. Artisans, instead of unrolling endless extension cords, can use an LED floodlight tripod with Énergò-24.

ÉNERGÒ-24 Energy for containers

The Énergò-24 system for containers includes one or two 24V LED ceiling lights with an external anti-panic siren. The wiring and light are installed with magnetic pad directly to the container without drilling walls or roof, for do not create critical point about sealing. The installation is simple and can easily be carried out even by non-specialized personnel.
